40) I dont understand this one, can we go over it in class

---

45)

- Perimeter: 108 in
  - Area: 648 in<sup>2</sup>
- 

50)

- a:

Yes, just add up all the sides.

- b:

No, some rectangles do not have 4 equal sides.

- c:

No, the perimeter and area are different.

---

55)

---

60) Perimeter, because weatherstripping goes **around** the door.
